### 22. Earnings / (Loss) per share (Cont'd)

### (b) Diluted

For the purpose of calculating diluted loss per share, the loss for the year attributable to owners of the Company and the weighted average number of ordinary shares in issue during the current quarter have been adjusted for the dilutive effects of all potential ordinary shares arising from the assumed exercise of the ESOS Options where applicable.

The computation of diluted loss per share for the current quarter excluded the exercise of ESOS Options as their exercise would not result in any dilutive potential ordinary shares after adjusting for the number of such ordinary shares that would have been issued at fair value being average market price of the shares during the current quarter. Accordingly, the diluted loss per share equals the basic loss per share for the current quarter.
